

INTERNATIONAL FIBER COLLABORATIVE

2007-2008

Charities

With completion of this project I will sell the individual panels and/or donate my research to a not-for-profit Fiber Charity such as Afghans For Afghans. Suggestions are welcome.

This way the project can participate in charities and give directly to those who are in need. Unless requested, panels will not be returned to artist. Many aspects of this project are still hard to foresee, however I have great hope that a solution will be reached.
